

MEDICINE, NAZISM AND THE HOLOCAUST MOOC- PILOT

BACKGROUND

After three years of a successful launch of a Hebrew version of a Medicine, Nazism, and the Holocaust MOOC (Massive Open Online Course), with close to 2000 learners and outstanding feedback, we have produced an English-version of this MOOC. We have approached international leading scholars who generously gave time and expertise, traveled to North America and Europe for this purpose, and have applied rigorous course design to combine the lectures with additional resources, assignments, a discussion forum, and reflection opportunities. We are now ready to pilot this course.

DESCRIPTION

The course is comprised of 9 units that are offered every two weeks, thus spanning 5 months of active study. It is free of charge and all assignments, reflections, and forum discussions will be provided with the course directors' feedback. In addition, we will welcome comments and feedback on the MOOC by the learners to debug and further improve the MOOC before widespread dissemination.

COURSE DIRECTORS:

- PROF SHMUEL REIS,
MD MHPE
- DR MICHAL RAMOT,
PHD

PLATFORM: CAMPUS.IL

המיזם הלאומי ללמידה דיגיטלית
المشروع الوطني للتعليم الرقمي
Israel's National Digital Learning Initiative

COURSE FACULTY:

1. Prof. Shmuel Reis, Center for medical Education, Hebrew University /Haddasah. Israel
2. Dr. Patricia Heberer-Rice, USHMM, Washington DC, USA
3. Dr. Ariel Lefkowitz, University of Toronto, Ont, Canada
4. Dr. Joanna Krongold, University of Toronto, Ont, Canada
5. Prof. emer. Steven Aschheim, Hebrew University, Jerusalem, Israel
6. Prof. emer. Arie Shalev MD ,Hebrew University, Jerusalem
7. Prof. Franziska Eckert, Medical University of Vienna, Austria
8. Prof Ashley K. Fernandes, MD, PhD, The Ohio State University College of Medicine, USA

FOCUS:

In view of recent events and the alarming rise in antisemitism we have added lectures and content on religious discrimination and antisemitism, dehumanizing discourse and prevention of unethical health professionals' conduct. We have also integrated recommendations and content of the Lancet Commission on medicine, Nazism and the Holocaust published Nov 2023.

CAPACITY:

The pilot is limited to 50 participants. Admission will be on a first come, first admitted basis. Groups (faculty and/or learners) are welcome, and if exceeding the capacity may be accommodated into specific "classes".

PROCEDURE:

Interested health professionals or relevant health professions educators, in all stages of the professional life cycle, and all disciplines, globally are welcome. When applying please provide an abridged CV and a letter of interest that will include your email for future communication. .

TIMING:

WE WILL GO LIVE
JULY 1ST, 2024. THE
COURSE WILL END
NOV 30, 2024.

**DEADLINE FOR
APPLICATIONS IS MAY
10, 2024.
ADMISSIONS WILL BE
ANNOUNCED MAY 17,
2024.**
